

Order an Eval License

- Sign into Rocket Business Connect
- Select “Manage License” from the menu bar at the top of page
- Click on “Create new license”
- Enter your company name as the end user
- Check a license type of "Eval".
- Press Submit
- Click on the customer ID or the customer name. (If you click on customer name, you can view or edit customer information).
- Under the ‘Add Products’ section
 - Use the drop down menus to select: ‘Product’, ‘Platform’, ‘Edition’ and, if applicable, ‘Data Server’.
- Press Submit.
- Select the desired version and OS combination by clicking on the OS release link.
- Verify information and that “Yes” is selected for delivery. (Only products in GA status are available for delivery)
- Press Submit.
- A select add-ons screen will appear if there are any add-ons available for the product.
- Select any add-ons desired.
- Press Submit until you are back to the initial current configuration screen
- Review the order. You can click “Edit” or “Remove” to make any necessary changes or click “Add More Products” to add more products.
- Once you have all of the desired components of your order, click “Check Out”
- Review pricing (Evaluation licenses are no charge)
- Add any notes for your records in the “Customer Comments” section, optional.
- Read the export statement and check the Export compliance box “I agree”.
- Press Submit.
- Record the transaction number, this is a confirmation.
- You can click the “Download Now” link to download products available for download.
- Click on the appropriate product links.
- A confirmation email will be sent to you with a link you can click on to download, also.
